ROSHINI KUMARI P

B.Sc. Computer Science Student

Address: Coimbatore, Tamil Nadu 641006
Phone: 8667384206
Email: roshinikumari015018@gmail.com

PROFILE SUMMARY

B.Sc. Computer Science student with hands-on experience in **Java, Python, SQL** and web technologies. Built **CareerMatch AI**, a job recommendation and skill-gap analysis platform using TF-IDF and cosine similarity, and contributed to **MineSafe Quest**, a multilingual mine safety training project. Seeking internship and entry-level opportunities in software development, data and AI.

TECHNICAL SKILLS

Programming: Java, Python, C, SQL

Web: HTML, CSS

Data & ML: Pandas, NumPy, Scikit-learn, Data Cleaning, Data Visualization, Machine Learning Fundamentals

Tools: Git, GitHub, VS Code

Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, DBMS

EDUCATION

Bachelor of Science in Computer Science
KG College of Arts and Science | *Expected May 2028*

PROJECTS

CareerMatch AI — *AI-Powered Job Recommendation & Skill Gap Analysis Platform*
Python, Streamlit, Pandas, Scikit-learn, MCP

- Built a blended matching engine (70% exact skill overlap + 30% TF-IDF similarity) scored across 10 job roles in 6 career categories.
- Implemented resume-based skill extraction, scanning uploaded PDFs against a 22-skill technical taxonomy to auto-populate profiles.
- Designed a live dashboard computing per-session metrics: highest match %, top job matches, and missing skills to learn.
- Built dual delivery paths — Streamlit UI and MCP-based assistant — for consistent recommendations across interfaces.

MineSafe Quest — *Gamified Multilingual Mine Safety Training Platform*
Unity, C#, Firebase, React, OpenAI API

- Contributed to a gamified safety-training concept for mining environments using realistic emergency scenarios.
- Designed training missions covering PPE, hazard detection, fire emergencies and gas-leak response.
- Included multilingual guidance and offline-oriented training for workers in remote mining areas.
- Developed as a Smart Education / Software hackathon project.
